

Please download the pdf document in the resources section to view the emails you will need to investigate.

In your investigation of the emails, what signs did you find to indicate whether each email was malicious or safe? Give your opinion and analysis on these emails in this document, then upload it as your submission.

Email 1:

Is this email Safe or Malicious?	My Analysis
Safe	<ul style="list-style-type: none">• There are no links or other attached documents• Two people who knows each other.• Judging by the answer to the e-mail it is just two friends talking about game trailers.

Email 2:

Is this email Safe or Malicious?	My Analysis
Malicious	<ul style="list-style-type: none">• The name the email uses isn't consistent with the display name.• The e-mail tries to make the person believe that there is a problem about the Office 365 and uses the terms "Action Required" or "SECURITY"• The email sender is says the user can download a file with large document only after updating the account.• Finally , probably after clicking the link it will ask the account information.

Email 3:

Is this email Safe or Malicious?	My Analysis
Malicious	<ul style="list-style-type: none">• First of all Facebook is a big well known company, if a person can't login , he/she can just simply ask the try to login the Facebook without sending the link.• Thr URL might be "https" but the "B" in the URL is suspicious and the extention of the URL is suspicious as well.• After clicking the link it will probably open a fake facebook login page to enter the account information.

Email 4:

Is this email Safe or Malicious?	My Analysis
Safe/Suspicious	<ul style="list-style-type: none">• It seems like a normal advertisement mail.• If it asks the card details after clicking the see more then it might be suspicious.

Email 5:

Is this email Safe or Malicious?	My Analysis
Malicious	<ul style="list-style-type: none">• No government official will ask your personal account.• This is an old school phising e-mail.

Email 6:

Is this email Safe or Malicious?	My Analysis
Safe	<ul style="list-style-type: none">• Mail addresses are official.• The conversation is written in professional business language

Email 7:

Is this email Safe or Malicious?	My Analysis
Malicious	<ul style="list-style-type: none">• This is enough indicators for us to assume that the link is probably malicious and should be treated as such.• The e-mail seems to make the person convince that there is a receipt to download but it in .php format.• There is no explonation or information about the link.• The link starts with hxxp.
